

CUSTOM WOOD ACCESSORIES

Since 1980, Everlasting Fence Company has been providing customers with the best products in the industry and a level of service matched by none. With a classically trained woodworker on staff, we have not only built fences for our customers over the years. From a basic 2 post pergola to a patio spanning pergola, complete with Red Cedar planter boxes, we can not only build and install it, we can help design it as well. Using mostly western Red Cedar Select lumber, these lightweight additions can support fans, shades and even climbing vines or wisteria. Adding a beautiful custom arched gate to an otherwise standard wood fence can help elevate your homes curb appeal, and yes, we can build that as well. Ask your salesman about what our woodshop can offer you today.
