

HORIZONTAL FENCES

Since 1980, Everlasting Fence Company has been providing customers with the best products in the industry and a level of service matched by none. Through intense product research and annual training, our salesman and installation teams can help you accomplish your fencing and overall outdoor design goals. Horizontal fences offer an amazing modern look and can be quite versatile. We tend to stick build these panels, which means we assemble the loose boards on-site, so we can adjust to grade changes to get the best flow possible for your property. Western Red Cedar is lightweight and stable, so it is less prone to warping and twisting, which is why we highly recommend using it for horizontal designed fences. With an array of board widths to choose from and spacings, these fences can truly be built to the specific design you have dreamed of or even a simple design found online.

Wood: Western Red Cedar (WRC)

Spacing: Ranges, but standard spacings are solid, 1/4", 1/2", 3/4" or 1" spaced

Pickets: 1" x 2" (actual 3/4" x 1 1/2") 1" x 4" (actual 3/4" x 3 1/2") or 1" x 6" (actual 3/4" x 5 1/2")

Heights: 36", 42", 48", 54", 60", 72" or 96"

Pool Code: 48" high and up

Posts: PT 4" x 4" (actual 3 1/2" x 3 1/2") set on 6' centers are standard, but 5" x 5" and 6" x 6" are available

*Above represents standard dimensions, but all fences can be customized.

1"x6" Standard Installation

Custom IPE Lumber

In Between Black Square Pipe

Horizontal Shadowbox

1"x6" Horizontal Between Posts

Solid Horizontal with Accent Topper

Spaced Horizontal

Horizontal IPE Accents

Horizontal Standard Install

1"x4" Spaced Between Posts

Between Posts Flush to Front

Customized Horizontal with Header

Standard Installation

Boards are attached to the face of the posts and capped with a vertical board to hide the seams.

Between Posts

Boards are attached to a vertical 2x2 that is screwed into the posts. The boards can sit flush with the face of the posts or be recessed and sandwiched with 2x2's on either side.

On Pipe

Boards can be attached to square pipe or round pipe. Both standard and between post installations are available.

HORIZONTAL FENCES CAN BE INSTALLED WITH POST CAPS
